

Basic Detail Report

Lamp, Kerosene

Date

c. 1904

Primary Maker

J. Anton & Son

Medium

Brass/Metal/Tin(?)

Description

Miner's kerosene lamp. Conical-shaped brass body with soldered seams. Round hinged cap with vent hole. Tapered spout soldered to body with round guard around mouth. Bent wire hanging hook with a pointed tip is soldered in a socket opposite the spout. All other components are a different silver metal than the body, possibly tin. Stamped maker's mark on the front of the spout showing an eagle with banner above and below with text.

Dimensions

4.5 x 2.125 x 4.25 in. (11.4 x 5.4 x 10.8 cm)
