

Basic Detail Report

Shackle

Date
1775-1835

Medium
Brass; Iron

Description
Metal band, probably a neck shackle. The band has two jointed hinges. One end of the band ends in a "V" shape and has four circular opening that are used to size the band by sliding the other end of the band which is a square of metal with a cylindrical center to the chosen opening. A rectangular band of metal slides to secure the size of the band. A brass inscription plate is adhered to the band.

Dimensions
4.875 x 15.5 in. (12.4 x 39.4 cm)
