Wood

Description

Dark brown and black painted wooden foundry pattern. The piece is in the shape of two pipes intersecting at a right angle. The middle segments are in brown wood and are wider than the outer three cylinders in black which extend from the middle section to the left, right, and down. The top has a flat platform with carved supports extending up from the face of the piece. A line bisects the piece in half around the left and right side.

Dimensions

Height x Width x Depth: 10.25 × 14.188 × 5.75 in. (26 × 36 × 14.6 cm)
