

Basic Detail Report

Coin, Commemorative

Date

1996

Medium

Metal/plastic/paper

Description

Commemorative coin (a) with grey plastic case (b). (a)

Commemorative coin made of an alloy of copper, nickel,

and zinc; appears to be a light gold color and contained inside a plastic protective case. The obverse of the coin features an image of Nikola Tesla surrounded by a Slavic language text providing his name and birth and death places and dates. The reverse of the coin features an image of a double headed eagle and a shield. It has text embossed in same language, the date of minting above the eagle emblem, and value below the eagle (20 new dinars). (b) Grey plastic case which contains coin (a) in a red velvet-like pad. Has the same double headed eagle printed on the cover in silver as is on the reverse of the coin. Attached to the reverse of the grey case is a sticker with black printed text providing source information.
