Description

Playpen comprised of three hexagonal plastic sides (a-c), three half hexagonal plastic sides (d-f), child seat (g), wooden assembly with spinning toy (h), hexagonal metal insert (i), red plastic pentagon (j), green plastic pentagon (k), blue plastic pentagon (l), orange plastic pentagon (m), purple/pink plastic pentagon (n), and yellow plastic pentagon (o). (a-c) Yellow/gold hexagonal molded plastic play-set piece. Three of the six sides feature a vertical bracket with two metal lined holes (one on the top and on the bottom). There are interior braces which form a honeycomb-like design with a smaller hexagon shape in the middle. This forms a platform. (d) Yellow/gold molded plastic side piece of play-set. Three sided, in the shape of half of a hexagon. The left and right side have slots with holes in the top and bottom for assembling the set. The two sides feature open sections with a vertical brace running through the space. The middle of the piece has a glass or Plexiglas window which is attached at its corners. The window has two stickers on it, one of a man from the chest up with a pink border, the other is an image of legs, arms, and a torso. On one of the outside edges of the piece is a brown metal latching device. (e) Yellow/gold molded plastic side piece of play-set. Three sided, in the shape of half of a hexagon. The left and right side have slots with holes in the top and bottom for assembling the set. The two sides feature open sections with a vertical brace running through the space. The middle section features a divided play area. One side has four rows of red/white/blue wooden blocks which flip. Each row contains five blocks. The other side of the area has three rows of plastic cube blocks (2 wide) of various colors (red, yellow, green, blue) which also flip. (f) Yellow/gold molded plastic side piece of play-set. Three sided, in the shape of half of a hexagon. The left and right side have slots with holes in the top and bottom for assembling the set. The two sides feature open sections with a vertical brace running through the space. The middle section features two horizontal spaces, one is empty. The other has a white plastic puzzle piece shaped set of parts which interlock and are attached to the assembly by screws. (g) Navy blue / white / metal collapsible child seat with a white strap/seat-belt. The chair has two white arm rests and three brackets on the bottom. (h) Wooden rectangle assembly with a round dowel rod in the center. One side has a yellow and blue spinning toy with a red and black/grey metal can which makes noise as it spins. (i) Hexagon shaped metal insert. Surface polished for a mirror-like finish. (j) Red plastic irregular pentagon shaped insert with raised edges. (k) Green plastic irregular pentagon shaped insert with raised edges. (l) Blue plastic irregular pentagon shaped insert with raised edges. (m) Orange plastic irregular pentagon shaped insert with raised edges. (n) Purple/pink plastic irregular pentagon shaped insert with raised edges. (o) Yellow plastic irregular pentagon shaped insert with raised edges.
