## Banner

### Date

c. 1970

### Medium

Fabric; Paint; Brass

### Description

Rectangular golden yellow fabric banner. Front has black text with organizational information. The proper left end of the banner has a black oval with golden yellow symbol inside. Top and proper left edges have white fabric trim with eight brass grommets along top and one brass grommet in the bottom proper left corner. Bottom of banner has cream-colored trim and fringe. The banner has been modified. Sections of original red text have been covered by golden yellow fabric patches, but the text is visible through the reverse. The proper right end of the banner has been sewn in a folded-over position thus obscuring a black oval with golden yellow text inside; the obscured oval/text is visible on the reverse. The folded over edge also has white fabric along the top and proper left edges with two brass grommets along top edge and one brass grommet in the bottom proper left corner; also has the cream-colored trim and fringe along the bottom.
